In practice, this reduces the risk of having to redo a project after weeks of work.

Measurement Blueprint – Record the total height, cuff width, and foot opening in inches or centimeters, depending on your market. For a traditional Christmas stocking, a common size is 18 inches tall with a 6-inch cuff.

Pattern Grid – Sketch the stitch plan on graph paper or a digital canvas. Identify where ribbing, lace, or textured sections will occur, and allocate at least 10% of the total rows for edge stabilization.
